

# INVITATION

## NACI Stakeholder Consultation Workshop

**Framework for the Development of an Innovation Scorecard for South Africa**

**21 October 2016, 09:00-15:30  
the Innovation Hub, Pretoria**

Dr Azar Jammie and the National Advisory Council on Innovation (NACI) invite you to a stakeholder consultation workshop to solicit inputs and facilitate consensus on a framework for developing an innovation scorecard for South Africa. Such a framework will be a useful tool to assess the performance of the national system of innovation (NSI) and its status.

The workshop will focus on the indicators and proxies that need to be included for each selected innovation component and their linkages. The discussions at the workshop will result on a report that will assist NACI to refine and finalise a framework for an innovation scorecard.

***To RSVP, kindly complete and email the attached registration form to [thabo.mosenthal@dst.gov.za](mailto:thabo.mosenthal@dst.gov.za) by the 14th October 2016.***

If you have any questions, please contact the NACI Secretariat at
